If you want to ride with another registrant, we suggest that you register at the same time and take note of the remaining spots available on the ride you register for.

What is the weather like during the Jamboree?

The weather in Kanab at the end of April can range from sunny and hot to cloudy with rain, sleet, or snow! Be prepared for whatever Mother Nature brings our way.

What is the difference between a Moderate, Advanced, and Extreme Ride?

Moderate:

These rides are mostly dirt/sand roads that most riders will find fairly easy. There may be a couple of opportunities that might provide a small challenge, but these are kept to a minimum and traveled in the easiest direction. Good option for all machines and skill levels.

Advanced:

These rides have more challenges than our Moderate rides. There are only a few advanced spots on the trails, however they may require a higher level of skill and confidence to navigate. We would recommend a minimum of 60" machine for these trails to avoid problems.

Extreme:

These rides have many more technical challenges with steep rock ascents and descents. They may require winching and vehicle damage is possible. We require a minimum of 60" machines and wider is preferable. Must be highly skilled riders with high clearance vehicles.

Why aren't you offering breakfast this year or staging the rides at the Kanab Center as in previous years?

Due to circumstances beyond our control, we no longer have a venue available to us to serve breakfast or to stage the rides from. There are several restaurant options available for breakfast if your motel doesn't offer breakfast.
